History of the **BIKINI**

1950s The Original Bikini

Movie stars, models and showgirls introduced America to the first bikini in the early 1950s at Las Vegas resorts like the Dunes, Flamingo and Desert Inn.

1960s

"Itsy Bitsy Teenie Weenie Yellow Polka Dot Bikini"

Brian Hyland's hit single topped the charts in 1960 and helped make skimpy swimwear the rage at the Sahara, Riviera, Stardust and Sands.

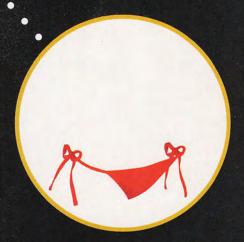

1970s The Halter Bikini

The 1970s had a style all its own and the halter bikini was a prime example when it debuted at the Tropicana, Aladdin and Caesars Palace.

1990s The Tankini

The Tankini captured
the sporty style of the
1990s and was the
swimsuit of choice when
relaxing poolside at the
Rio, Mirage, Hard Rock
and Venetian.

VegaskiniNo comment.

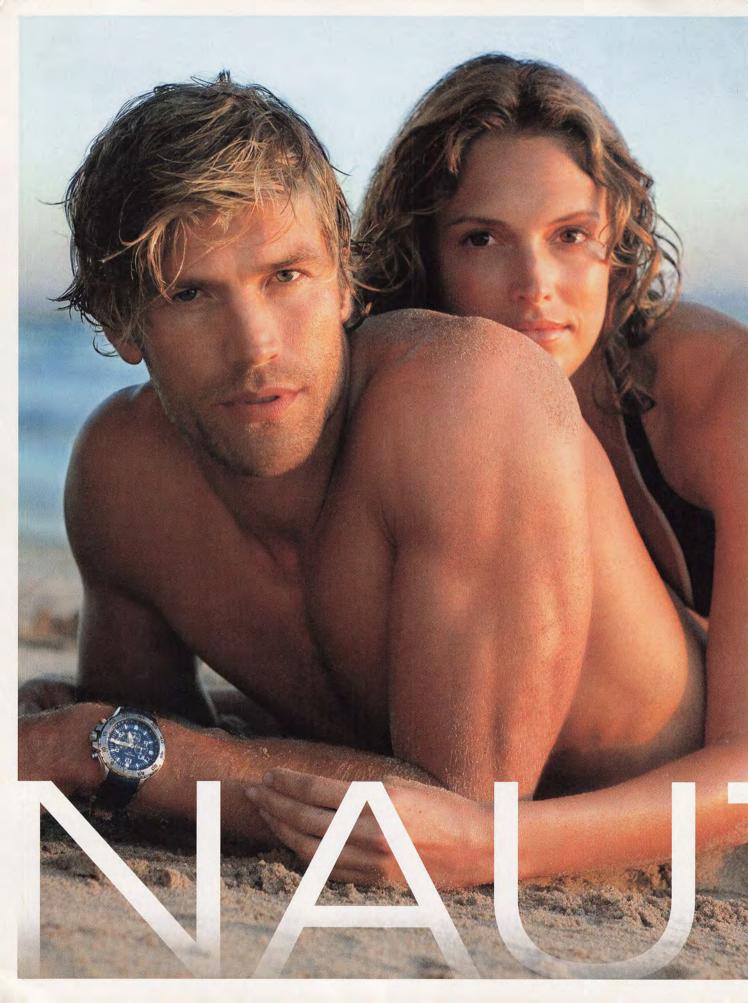

1980s The Bandeau Bikini

In the 1980s, tan lines were no more thanks to a new era of strapless swimwear made popular at the Golden Nugget, Hacienda and Las Vegas Hilton.

1980 LAKE PLACID

No one gave a group of American college students a chance against the hardened professionals of the Soviet team. At full-time the score stood at 4-3 and the U.S. Hockey Team had ended thirty years of Soviet domination and performed the unforgettable 'miracle on ice.'

SWIMSUIT EDITORS

DIANE SMITH MJ DAY, DARCIE BAUM

Being a Swimsuit editor requires a wide range of expertise: in fashion (for styling the shoots), in business (for booking models) and in geography (for scouting locations), not to mention people skills. Day once found herself bartering clothespins with a group of Bedouins in Tunisia to keep them off the set. But the editors' most important relationships are with the people in front of the camera. "No one can possibly spend as much time with the models as (from left) Darcie, Diane and MJ do," says SI assistant managing editor Chris Stone. "It says something that models are always dropping by the office to see them. They trust them and are less inhibited because they know that these three are always looking out for them."

BEHIND THE SCENES

PHOTOGRAPHER

WARWICK SAINT

....

So much for easing into things. For his first Swimsuit assignment, Saint—born and raised in South Africa—was helicoptered to the top of a glacier to photograph four Olympians (page 82). "Warwick was unflappable," says design director Chris Hercik. "Nothing stopped him—rain, sleet, snow. As tempted as we are to make him our cold-weather specialist, I think he's earned himself a trip to the beach."

MAKEUP ARTIST

TRACY MURPHY

••••

In her 10 years working on SI Swimsuit shoots, Murphy has dealt with everything from shark frenzies to food poisoning. But she's survived it all—and helped others thrive. Says Brooklyn Decker, who worked with Murphy in the Maldives (page 52), "When you're dealing with beach storms and jet lag, you need fun, easygoing people. I felt beautiful and had a blast with Tracy on set. She's a true star."

DESIGN DIRECTOR CHRIS HERCIK

••••

When you've been designing Swimsuit Issues for eight years, as Hercik has, coming up with something fresh is a challenge. This year's innovation was the 18-model foldout on page eight. "Chris's work combines creative intuition with formal discipline," says SI Group editor Terry McDonell. "There's no better combination for an art director. He lifts every page he touches."

BIKINI SPEAK

A SWIMSUIT SHOOT CAN SEEM DOWNRIGHT FOREIGN IF YOU'RE NOT FLUENT IN THE LANGUAGE. WE'RE HERE TO TRANSLATE PRETTY HANDS An instruction, conveyed in the same singsong voice one might use to talk to a pet parakeet ("Pretty bird, pretty bird") to a model to keep her digits splayed, not gnarled

or bent.

MY GIRLS How a model refers to her own breasts. Synonyms: bust, bosom

PEPPERONI The epicenters of one's "girls," which are prone to popping out at inopportune times and spoiling infinite otherwise-pristine potential cover shots.

BALI HA'I The preferred location of a model's "girls." Antonym: Bali Low.

UNDERBOOB

The portion of a "girl" that sneaks out of the bottom of a bikini top, creating a kind of bizarro (but not unappealing) reverse cleavage. (See page 168.)

SHAKE 'N BAKE The combination of sand + water + sun-kissed skin, which results in something resembling a breaded piece of chicken.

Desirable on both on the dinner plate and the printed page. (See page 41.)

Not what you're thinking. What occurs when a model poses with her "girls" pushed together. Ex: "Dominique, that is some nice kissing cleavage." (See page 60.)

ROCK HUMPING An unfortunate pose that might be perceived as mimicking the making of sweet, sweet love to a boulder. See also: boat humping, cliff-face humping, cabin humping.

THE DOWNLOAD

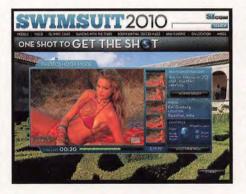

STARTING AT MIDNIGHT ON FEB. 9, SI WILL ROLL OUT MORE VIDEO, LONGER VIDEO AND VIDEO ACROSS MORE PLATFORMS THAN EVER BEFORE. THE 2010 OFFERINGS INCLUDE:

MODEL CLIPS AND DIARIES

....

The Chaos Films team of Robb Riley and Julie Deichman were on-site for each of the nine shoots featured in the magazine, producing 105 model clips averaging roughly two minutes in length. Embedded in this extravaganza are six model diaries (by Brooklyn, Irina, Anne V, Damaris, Christine and Zoe) and 11 top-10 lists ranging from the best athlete models (including Danica Patrick, Anna Kournikova and Maria Sharapova) to the best nonswimsuit swimsuits (such as the chili-pepper getup that made Molly Sims look extrahot in 2002). For more, go to **SI.com/swimvideo**.

GOT GAMES? WE GOT GAMES

...

You get to play SI photographer in this interactive game, in which you race against the clock to capture the target photo from an exclusive video clip of one of 18 models. Frame the shot by panning, zooming and clicking the shutter at just the right time. For more, go to SI.com/oneshot.

WORLD'S SEXIEST APP

...

Go mobile with Swimsuit; this year you can upload 145 photos and 46 videos, including 10 that are exclusive to the iPhone app by going to **SI.com/mobile**.

MAKING OF SWIMSUIT

••••

PlayStation and PSP users will be able to download *The Making of Swimsuit 2010* video on the PlayStation Network. To access the 45-minute show, which takes viewers behind the scenes everywhere from the peaks of Chile to the depths off the Maldives coast, go to the PlayStation store. You can purchase the program for \$5.99 at **SI.com/playstation**.

Dan Patrick

The Interview:

LINDSEY

DOWNHILL DARLING

THE GOLD MEDAL HOPEFUL DISHES ON MOONLIGHTING AS A MODEL AND STAYING WARM ON A GLACIER—WITHOUT THE LAYERS

DAN PATRICK: When you were a kid growing up, if I had said, "You can be a swimsuit model or an Olympic champion," which one would you have picked?

LINDSEY VONN: I probably would have said Olympian, not swimsuit model. I never would have thought that was possible by any means.

DP: What's it like when they're giving you direction during the shoot?

LV: At first I was very intimidated—you've only got your bathing suit on. But the whole crew was really easy to work with, and they made me feel really comfortable. It wasn't that bad. It was just cold. We took a helicopter to the top of a glacier, and I was freezing. That was definitely the least amount of clothing I've ever had on on the top of a mountain.

DP: Is it tougher to be a swimsuit model for a day or to ski for a day?

LV: Being a swimsuit model, even for a day. It's much harder, at least for me, than skiing.

LV: Yeah, my family doesn't really know about the swimsuit part yet. I'm not sure how they're going to take it. The bottom line is, I have to get approval from my grandma—otherwise I'm in big trouble.

DP: What's the worst part of all the attention you get?

LV: The only thing that bothers me about the attention is sometimes crazy fans will kind of hunt you down. That's the only thing that freaks me out, when people come up to me when I'm eating and they want to take pictures. That stuff is a little bit weird. DP: Yeah, it's called stalking. I don't know if those swimsuit pictures are going to put that to rest.

LV: Yeah, it might become a little worse now. [Laughs.]

DP: I'd think the first autograph you'd sign of the Swimsuit Issue would be for the Austrian coach who said you ski faster because you're packing extra weight.

LV: When he made those comments, I had to bite my tongue pretty hard and not spill the beans about the Swimsuit Issue. I'll definitely be bringing it to the first race. Maybe he'll recant his statement. **DP:** How many golds can you win in Vancouver?

LV: I'm honestly not sure. I just want to win a medal. Bronze, silver or gold, it doesn't really matter to me. I've never been able to win an Olympic medal of any color before.

DP: How many events will you enter?

LV: All five.

DP: So there's a chance that you could be the Michael Phelps of the Winter Olympics?

LV: There's a chance, but it's a really difficult sport because there are so many variables. I could be the overwhelming favorite going in and come out with no medals. It can be completely sunny for the first 10 racers and then get completely dark and start snowing, or fog could come in, or you could get a gust of wind. DP: What's that feeling like when you know you're going to crash?

LV: Most of the crashes I've ever had have come up really fast. You're not expecting it. It just kind of happens. When I'm sliding, I just try to relax and not get caught up and become a human pretzel.

DP: Do you have a place for the medal picked out?

LV: Yeah, it's probably going to go next to my husband's bowling trophy. It's on the center of the mantelpiece right now. I might have to move that to the side if I have an Olympic medal.

DP: Do you have more respect now for these fashion models who do this for a living?

LV: A lot more respect. I've done fashion photo shoots before, but never anything like this. It's so hard, and you work so many hours. It's pretty brutal. But I have to say, I think my working conditions were tougher—I was in the snow and they're on the beach. [Laughs.] Next time I'd like a vacation in a beachy place.

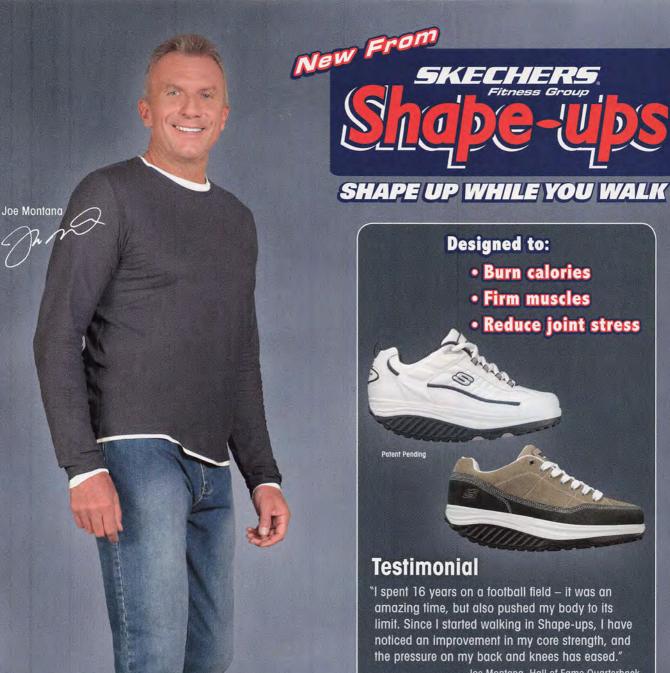

The time geometry got useful.

Who says math isn't handy? Introducing NEW Tostitos® Dipping Strips. Every chip is longer, stronger and perfectly angled to reach every last corner and curve, so you can heartily dip like no Tostitos® Tortilla Chip (or finger) has ever dipped before. My friends would describe me* as . . . "A little devil. Two years ago I was in New York with a bunch of friends. I was telling them about a time when I was 12 and threw a dozen eggs through the open car window of a lady who was napping. They thought I was crazy, so I left and came back from a market with three dozen eggs. We turned Soho into a giant omelet."

Not only is the Atacama the world's highest desert (altitude: 8,000 feet), it's also the driest. They measure rainfall in millimeters per decade, so there's

no risk of having a sightseeing trip (or a Swimsuit shoot) ruined by the weather. And there's plenty to get out and see—geysers, hot springs and ruins, which are incredibly well-preserved due to the arid climate.

The most breathtaking sight, though, doesn't require you to leave your hotel. All you have to do is wait for the sun to go down and then look up. The Atacama has the clearest skies in the Southern Hemisphere. The Alto Atacama has an observation deck with several telescopes, but even to the naked eve, the stars (and meteor showers and even nearby galaxies) seem so close

THERE'S ANOTHER WAY TO TREAT UNRESOLVED SYMPTOMS OF DEPRESSION.

ABILIFY is FDA-approved to treat depression as add-on treatment to an antidepressant in adults when an antidepressant alone is not enough.

Talk to your doctor about the risks and benefits of adding ABILIFY.

Antidepressants*
including:
Lexapro°
Zoloft° +
Prozac°
Effexor XR°
Paxil CR°

ABILIFY
(aripiprazole)
2-1, 5 og Tablet

Available as a prescription medicine only.
*Or generic equivalents where available.

IMPORTANT SAFETY INFORMATION:

Elderly patients with dementia-related psychosis (eg, an inability to perform daily activities due to increased memory loss) taking ABILIFY have an increased risk of death or stroke. ABILIFY is not approved for treating these patients.

Antidepressants can increase suicidal thoughts and behaviors in children, teens, and young adults. Serious mental illnesses are themselves associated with an increase in the risk of suicide. When taking ABILIFY call your doctor right away if you have new or worsening depression symptoms, unusual changes in behavior, or thoughts of suicide. Patients and their caregivers should be especially observant within the first few months of treatment or after a change in dose. Approved only for adults 18 and over with depression.

- Call your doctor if you develop very high fever, rigid muscles, shaking, confusion, sweating, or increased heart rate and blood
 pressure, as these may be signs of a rare but potentially fatal condition called neuroleptic malignant syndrome (NMS)
- If you develop abnormal or uncontrollable facial movements, tell your doctor, as these may be signs of tardive dyskinesia (TD), which could become permanent
- If you have diabetes or have risk factors or symptoms of diabetes, your blood sugar should be monitored. High blood sugar has been reported with ABILIFY and medicines like it. In some cases, extreme high blood sugar can lead to coma or death
- Other risks may include lightheadedness upon standing, decreases in white blood cells (which
 can be serious), seizures, trouble swallowing, or impairment in judgment or motor skills. Until you
 know how ABILIFY affects you, you should not drive or operate machinery

The **common side effects** in adults in clinical trials (≥10%) include nausea, vomiting, constipation, headache, dizziness, an inner sense of restlessness or need to move (akathisia), anxiety, and insomnia. Tell your doctor about all the medicines you're taking, since there are some risks for drug interactions. You should avoid alcohol while taking ABILIFY.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

Please read the additional Important Information about ABILIFY on the adjacent page.

IMPORTANT INFORMATION ABOUT ABILIFY

This summary of the Package Insert contains risk and safety information for patients about ABILIFY. This summary does not include all information about ABILIFY and is not meant to take the place of discussions with your healthcare professional about your treatment. Please read this important information carefully before you start taking ABILIFY and discuss any questions about ABILIFY with your healthcare professional.

Name

ABILIFY® (a-BIL-ĭ-fī) (aripiprazole) (air-rī-PIP-ra-zall)

What is ABILIFY (aripiprazole)?

ABILIFY is a prescription medicine used as an add-on treatment to an antidepressant for adults with Major Depressive Disorder who had an inadequate response to antidepressant therapy.

What is depression?

Depression is a common but serious medical condition. Symptoms may include sadness, loss of interest in activities you once enjoyed, loss of energy, difficulty concentrating or making decisions, feelings of worthlessness or excessive guilt, insomnia or excessive sleep, a change in appetite causing weight loss or gain, or thoughts of death or suicide. These could be depression symptoms if they interfere with daily life at home, at work, or with friends and last most of the day, nearly every day for at least 2 weeks.

What is the most important information that I should know about antidepressant medicines, depression, and other serious mental

- · Antidepressant medicines may increase suicidal thoughts or actions in some children, teenagers, and young adults
- · Depression and serious mental illnesses are the most important causes of suicidal thoughts and actions

For more information, see the Prescribing Information and the Medication Guide called *Antidepressant Medicines*, *Depression* and Other Serious Mental Illnesses, and Suicidal Thoughts or

Who should NOT take ABILIFY?

People who are allergic to ABILIFY or to any substance that is in it. Allergic reactions have ranged from rash, hives and itching to difficulty breathing and swelling of the face, lips, or tongue. Please talk with your healthcare professional

What is the most important information that I should know about ABILIFY?

Elderly patients, diagnosed with psychosis as a result of dementia (for example, an inability to perform daily activities as a result of increased memory loss), and who are treated with antipsychotic medicines including ABILIFY, are at an increased risk of death when compared to patients who are treated with a placebo (sugar pill). ABILIFY is not approved for the treatment of patients with dementia-related psychosis.

Antidepressants may increase suicidal thoughts or behaviors in some children, teenagers, and young adults, especially within the first few months of treatment or when the dose is changed. Depression and other serious mental illnesses are themselves associated with an increase in the risk of suicide. Patients on antidepressants and their families or caregivers should watch for new or worsening depression symptoms, unusual changes in behavior, or thoughts of suicide. Such symptoms should be reported to the patient's healthcare professional right away, especially if they are severe or occur suddenly. ABILIFY is not approved for use in pediatric patients with depression.

Serious side effects can occur with any antipsychotic medicine, including ABILIFY. Tell your healthcare professional right away if you have any conditions or side effects, including the following:

Stroke or ministroke in elderly patients with dementia: An increased risk of stroke and

ministroke has been reported in clinical studies of elderly patients with dementia (for example, increased memory loss and inability to perform daily activities). ABILIFY (aripiprazole) is not approved for treating patients with dementia.

Neuroleptic malignant syndrome (NMS): Very high fever, rigid muscles, shaking, confusion, sweating, or increased heart rate and blood pressure may be signs of NMS, a rare but serious side effect that could be fatal.

Tardive dyskinesia (TD): Abnormal or uncontrollable movements of face, tongue, or other parts of body may be signs of a serious condition known as TD, which may be

High blood sugar and diabetes: Patients with diabetes and those having risk factors for diabetes (for example, obesity, family history of diabetes), as well as those with symptoms such as unexpected increases in thirst, urination, or hunger should have their blood sugar levels checked before and during treatment. Increases in blood sugar levels (hyperglycemia), in some cases serious and associated with coma or death, have been reported in patients taking ABILIFY, and medicines like it.

Orthostatic hypotension: Lightheadedness or faintness caused by a sudden change in heart rate and blood pressure when rising too quickly from a sitting or lying position (orthostatic hypotension) has been reported with ABILIFY.

Leukopenia, Neutropenia, and Agranulocytosis: Decreases in white blood cells (infection fighting cells) have

been reported in some patients taking antipsychotic agents, including ABILIFY. Patients with a history of a significant decrease in white blood cell (WBC) count or who have experienced a low WBC due to drug therapy should have their blood tested and monitored during the first few months

Suicidal thoughts: If you have suicidal thoughts, you should tell your healthcare professional right away.

Dysphagia: Medicines like ABILIFY have been associated with swallowing problems (dysphagia). If you had or have swallowing problems, you should tell your healthcare professional

What should I talk to my healthcare provider about?

Patients and their families or caregivers should watch for new or worsening depression symptoms, unusual changes in behavior and thoughts of suicide, as well as for anxiety, agitation, panic attacks, difficulty sleeping, irritability, hostility, aggressiveness, impulsivity, restlessness, or extreme hyperactivity. Call your healthcare provider right away if you have thoughts of suicide or if any of these symptoms are severe or occur suddenly. Be especially observant within the first few months of antidepressant treatment or whenever there is a change in dose.

Tell your healthcare provider about any medical conditions you may have and all medicines that you are taking or plan to take, including prescription and over-the-counter medicines, vitamins, or herbal products

Be sure to tell your healthcare provider:

- . If you have suicidal thoughts
- . If you have or have had a low white blood cell count (WBC)
- . If you or anyone in your family have or had seizures
- . If you or anyone in your family have or had high blood sugar or diabetes
- . If you are pregnant, plan to become pregnant, or are breast-

What should I avoid when taking ABILIFY?

- · Avoid overheating and dehydration
- · Avoid driving or operating hazardous machinery until you know how ABILIFY affects you
- · Avoid drinking alcohol
- · Avoid breast-feeding an infant

What are the possible side effects of ABILIFY (aripiprazole)?

Common side effects in adults include: nausea, vomiting, constipation, headache, dizziness, an inner sense of restlessness or need to move (akathisia), anxiety and insomnia. It is important to contact your healthcare professional if you experience prolonged, abnormal muscle spasm or contraction which may be signs of a condition called dystonia.

This is not a complete list of side effects. For full patient information, visit www.abilify.com. Talk to your healthcare professional if you have questions or develop any side effects.

What percentage of people stopped taking **ABILIFY** due to side effects?

In clinical trials, the percentage of adults who discontinued taking ABILIFY due to side effects was 6% and 2% for patients treated with sugar pill.

Can I safely take ABILIFY while I'm taking other medications?

ABILIFY can be taken with most drugs; however, taking ABILIFY with some medicines may require your healthcare professional to adjust the dosage of ABILIFY.

Some medicines* include:

- · ketoconazole (NIZORAL®)
- quinidine (QUINIDEX®)
- · fluoxetine (PROZAC®)
- · paroxetine (PAXIL®)
- · carbamazepine (TEGRETOL®)

It is important to tell your healthcare professional about all the medicines you're taking, just to be sure.

How should I take ABILIFY?

- · Take ABILIFY exactly as directed by your healthcare professional
- . ABILIFY is usually taken once a day and can be taken with or without food
- · If you miss a dose, take it as soon as you remember. However, if it is time for your next dose, skip the missed dose and take only your regularly scheduled dose
- Talk to your healthcare professional before stopping ABILIFY or changing your dose

General advice about ABILIFY:

- . ABILIFY should be kept out of the reach of children and pets
- · Store ABILIFY Tablets and the Oral Solution at room temperature
- · For patients who must limit their sugar intake, be aware that ABILIFY Oral Solution contains sugar
- · For patients who cannot metabolize phenylalanine (those with phenylketonuria or PKU), ABILIFY DISCMELT® contains phenylalanine
- · If you have additional questions, talk to your healthcare professional

- ANALYSIS: When told she had to select one, Bar said, "Can't I do a few things? I have the time. . . ." That's right, she has the time. She's telling you this. But look at you. Sitting there. Alone. At Sizzler. In the face of such honesty, energy and hope, you are overmatched. You are John Kruk digging in against Randy Johnson. But as the Buddhists say, there is no growth without pain, and everyone you meet in life is your teacher. Painfully, you have learned something about yourself. YOU HAVE NO SHOT HERE.

Thank you, Bar. Thank you for teaching. Here endeth the lesson.

Did somebody ask for the keys to the kingdom? In a blaze of guard-dropping glory, Bar Refaeli generously agreed to fill out a composite online dating questionnaire. Questions were culled from compatibility surveys on eHarmony.com and Chemistry.com. (Two questions from JDate-"Do you keep kosher?" and "Does this look infected?"-were considered but ultimately disregarded.) Data was obtained in a controlled environment: A 30-minute Skype session in the SI offices conducted by a 53-year-old happily married man with a winter itch.

What follows are Bar's most telling and evocative answers, complete with analysis. This is beyond insight. This is public service. Anyone can undo a bikini top. Who dares to pull back the curtain? Thank us later.
